PENNSYLVANIA LONG TERM CARE CE COURSE

CE COURSE OVERVIEW

Insurance producers holding the Life, Accident and Health Insurance license authority who market Long Term Care insurance (including LTC riders) are required to comply with the Pennsylvania Insurance Department's mandatory continuing education training for long term care insurance. Insurance producers comply with this requirement by completing an initial mandatory 8-hour Long Term Care CE course and a mandatory 4-hour CE update course every subsequent 24-month licensing cycle. This course complies with the 4-hour CE update requirement. The class will be presented using a combination of live personal instruction and PowerPoint presentation via webinar. Attendees will be able to ask questions to further facilitate the learning process. The live webinar format enables attendees the ability to access traditional face-to-face classroom-type instruction at a safe learning distance. Students who attend the entire CE course will be issued a CE certificate based upon attendance.

The Pennsylvania Long Term Care Insurance CE course will address long term care needs, providers and services, federal and state laws governing long term care, Medicare, Pennsylvania Medicaid, Pennsylvania Partnerships policies, taxation, self-funding, and other alternatives to manage long term care needs. Emphasis is placed on understanding long term care uses with a focus on promoting consumer suitability. This CE course is approved for 4 CE credits.
